

MEDICATION REFILL POLICY

- All prescription refill requests should be made by calling your preferred pharmacy. The pharmacy will then contact our office to confirm the refill.
- Medication refills can take up to 48 business hours to be completed.
- Refills can only be processed during our regular business hours, Monday through Friday, 8:00 a.m. to 5:00 p.m.
- After-hours calls to the on-call physician are to be made only in the event of a medical emergency, not for prescription refill requests.
- Please remember to monitor your medication supply prior to your office visits and request any necessary refills at the time of your visit.
- If you have not seen your provider for your recommended follow-up, you may need an appointment prior to your medication refill being authorized.

Thank you in advance for your cooperation.
